About Me

Full Stack Development and UX Designer

Full Stack Development as a Fresher in the industry and high level proficiency in the following programs: Flutter, JavaScript, SQL, Python, Java, Machine Learning, Hyperledger Composer, Angular and PHP, expertise with HTML and CSS seeks to establish a career as the Full Stack Developer for our Reputed Company. I am very familiar and experienced with Web Application Architecture and have worked with a good number of successful development teams.

Organizational Experience

1.5 year experience at Augusta High-tech Soft Solutions, Coimbatore (July 2019 - Present)

• 6 months experience in Angular.

• 3 month experience in ReactJS. (Currently Learning)

• 4 months experience in Flutter framework. (Current)

• 3 months experience in Express NodeJS.

• 2 months experience in Hyperledger Composer.

• Experience in Firebase and Integrating ML Kit from firebase with Flutter projects.

Projects

• AHP – Worked in developing the ANGULAR WEB DEVELOPMENT for an appointment booking web application between doctor and patient.

• AH Care – Worked in UI Design using Flutter (Android and iOS) for appointment booking mobile application. (Used firebase for basic messaging function).

• ProShark Sports – Worked in UI Design using Flutter (Android and iOS) for this mobile application.

• AH CRM – Worked in UI using Flutter (Web) and backend (Firebase) for this internal project and implemented AWS Lambda functions.

• Virtual CONS – Worked in UI using Flutter (Web) for this project.

• Green Gram – Worked in UI using Flutter and backend (Firebase) and its published in google play store.

• GunSafety App – Worked in UI using Flutter (Android and iOS) and backend (Firebase)for this project (It's a gun details and license storing app).

• AHLMS – Worked in UI using Flutter (Android , iOS and web) and backend (Node js) for this project (This project based on Leave Management System to apply leave, cancel and schedule leave process).
